aimed at preserving
the territory and its
history, for the future
generations.

**REDUCE – REUSE –
RECYCLE**
Giving impulse to the
circular economy by
adhering to projects
aimed at reducing
the waste produced
and choosing
packaging and
packing material that
respects the
environment.

Tenute del Garda Italy, Lombardia

A background photograph showing several men in a winery or processing facility. They are sorting through large quantities of green grapes that are being filled into plastic crates. The crates are arranged in rows, and the grapes are a vibrant green color. The men are focused on their work, and the scene is brightly lit, suggesting a sunny day.

PHILOSOPHY:

Tenute del Garda is located in Valtenesi, on the beautiful western shore of Lake Garda.

Our winery was founded a few years ago due to a great desire to cultivate and enhance our magnificent territory and its precious resources. Our purpose is to produce wine from the grapes grown on our land, cultivated with care and attention; we pay close attention to every detail in the growth of the vines and grapes, in order to create something truly unique and unmistakable.

Our vineyards are located in Barcuzzi and Campagnoli (near Lonato del Garda).

The age of the old grape vines cultivated with the experience and care of senior wine makers, combined with the methods and cutting-edge ideas of youthful ambition, has allowed us to obtain excellent wines. With Tenute del Garda the old and the new, tradition and modernity go hand in hand: the substantive experience of the older generation vine growers and the enthusiasm of their young disciples ensures that we are constantly striving for the best. On behalf of everyone at Tenute del Garda, a toast to you the reader, thank you for taking the time to get to know us.

VINEYARD:

Over thousands of years, an amazing wine-growing tradition has risen from the Valtenesi valley. Valtenesi was well known to the Ancient Romans who were the first to recognize the value hidden within the rich earth of this wonderful place and harness its productive potential.

The location of the valley, strategically nestled between the mountains and Lake Garda, gives an especially mild and temperate climate, which nurtures an abundant wealth of grapes for wine-making as well as thousands of olive trees that produce an excellent olive oil.

Thanks to its fertile territory and the delicately balanced sunny, breezy climate, the wines produced from the charming vineyards of Valtenesi are of an undisputed quality.

The particular ambient characteristics of the valley make it a unique area for wine production. The exquisite famous Groppello grape is grown here, a unique product of this famous territory, made from a refined native red berry grape variety, from which the DOC Garda Classico wine is created.

WINES:

TENUTE DEL GARDA RIESLING DOC

50% Riesling Italico 50% Riesling Renano

The Riesling and all its facets. This wine combines the strong and dynamic character of the Riesling Renano vine, to that of the humble and graceful Riesling Italico, creating an extremely vital harmony of flavors. A Riesling which shows our commitment to keeping these vineyards intact and to tell two different sides of the same story.

TENUTE DEL GARDA SOTTO SOPRA (*upside-down*) VINO “TURBOLENTO”

100% Gropello grapes

Our wildest child is an evolution of the Gropello, a classic method vinified in white. Sotto Sopra is a tumultuous wine. It sits on the lees for at least 18 to 24 months and gives the client the chance to choose its evolution and level of complexity, according to their taste. The second fermentation on the yeasts reveals itself in the classic cloudy color and in the yeasty, toasted, and citrus aromas. A wine of passion and madness.

Product Information:

Winery	Wine	Vintage	Case
Tenute del Garda	Riesling	2018	750/12
